

GIET
In Pursuit of Innovation

SKILL DEVELOPMENT / JOB ORIENTED TRAINING PROGRAMMES

AUTO-CAD PRACTICE

Duration - 1Month (90hours)

Module-1

Introduction

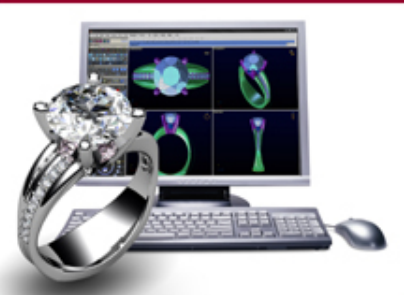

- Settings, limits etc.

Auto CAD Command

- Draw commands (line, circle, polygon, ellipse, rectangle)
- Edit Command
- Dimension Commands
- Modify Command

Module-2

2-D Drafting

- Create rectangle, circle, polygon
- Dimensioning
- Command essential for creating 2-D Drawing.

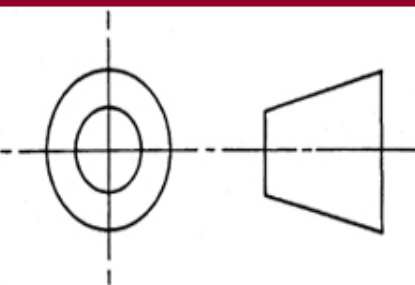

Module-3

3-D Drawing

- Create various Drawing views of the 3-D parts.
- Extrude the face/plane to get 3-D views.
- Layout, plotting, printing

Exercise

Practice on Auto CAD

Orthographic projections of lines, planes, and solids.

Isometric Projections.
